

Name _____

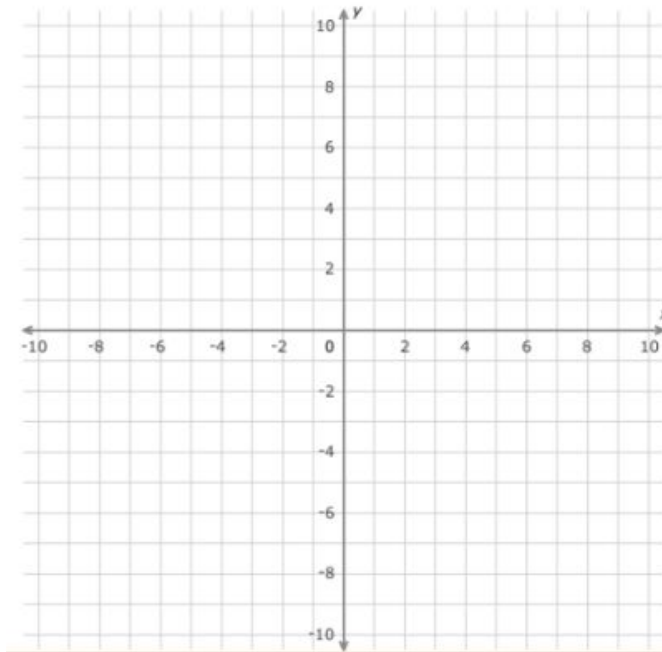

Date _____

HW - graphing systems of linear equations (day 2)

Math 8

Directions: Solve each system below. Check your solution in BOTH equations. (REMEMBER TO ISOLATE Y BEFORE GRAPHING)

1. $2x + y = -4$
 $x + 4y = 12$

CHECK:

2. $x + 3y = -12$
 $5x - 3y = -6$
